Hello, everybody! I am Georgiana, your English teacher and founder of SpeakEnglishPodcast.com. My mission is to help you speak English fluently. Speaking English is easier than it seems! You just have to use the right material and techniques.

"Don't stop me now. Cause I'm having a good time. I don't wanna stop at all!"

Today I'm going to talk about a **band** named **Queen** and the legendary **Freddie Mercury**. And with a mini-story, you're going to practice your speaking in English while learning fascinating facts about Freddie.

Have you heard of a **band** named **Queen**?

Of course, you have. I'm just kidding. :)

And how much do you know about their singer and songwriter **Freddie Mercury**?

Some people believe that Mercury was British, but did you know that he was **born** in Zanzibar, September 1946?

You probably guessed by now that his real name wasn't Freddie Mercury. His birth name was **Farrokh Bulsara**. I was curious about how to pronounce his name, so I have done my research, though I'm still not sure I'm pronouncing it correctly.

Did you know that Freddie was born with four extra teeth in the back of his mouth? He never fixed his teeth because he feared it would ruin his voice.

In 1964 Freddie's family moved to England, and in 1966, he enrolled in Ealing College of Art to study graphic illustration. There he met **Tim Staffell**, who introduced him to his band Smile. Watching Smile made Freddie realize that he really wanted to be in a band himself. Therefore, after he finished his diploma in graphic art and design, he joined a band called **Ibex**, playing the lead guitarist.

Later on, he formed the band **Queen** in 1970 with guitarist **Brian May** and drummer **Roger Taylor**. He

wrote numerous hits for **Queen**, including "**Bohemian Rhapsody**," "**Somebody to Love**," "**Don't Stop Me Now**," and "**We Are the Champions**." He also conducted a solo career and was a guest producer and musician for other artists.

He was known for his highly animated shows that normally involved public participation.

However, Mercury left us too soon, dying in 1991 at age 45 due to complications from AIDS. Although he will always remain in our hearts, and we will continue to listen to his music. Right?

If you enjoy his music and want to find out more about his life, I recommend the movie called "**Bohemian Rhapsody**" 2018 about **Mercury** and **Queen**. They say it's the most fascinating biographical musical film of all time.

It's been a real pleasure recording this episode about Freddie. I've been listening to **Queen** since I was a kid when I fell in love with his powerful voice. Since then, I became an absolute fan. I'm convinced that I'm never gonna get tired of listening to the band. Although I enjoy listening to all Queen songs, these are my absolute favorite: "**Under Pressure**" and "**Show must go on**."

Make sure you **listen** to some of Queen's best songs while you **follow the lyrics at the same time**. I guarantee that you're gonna love the band even more!

Before I continue with a mini-story, I would like to share with you my favorite **Freddie Mercury** quote:

"I won't be a rock star. I will be a legend."
