Hi! I'm Georgiana. Thanks for joining me for another episode of the Speak English Now podcast.

In today's episode:

- I'm gonna talk about running or jogging.
- Next, through a mini-story lesson, you'll practice vocabulary, and above all, you'll improve your spoken English.

Very well. Let's get started!

### **How to Start Running**

I know it's tempting to just go out and run as fast as you can for as long as you can. However, keep in mind that if you want to run longer, and feel stronger, you'll need to be very patient.

Experts recommend adding one minute of running for every four minutes of walking and gradually increasing your running time so that, eventually, you'll be running for twice the amount of time you spend walking.

Your main goal is to get fit without getting hurt. Going way too fast, before your body's ready, is one of the most common causes of injuries. You can stay injury-free by gradually building up the time you spend walking and running, increasing the time by no more than 10 percent from week to week.

### **Footwear**

Footwear is logically the most important element. Running shoes are often called sneakers. You can find all kinds of footwear and for all possible conditions.

For example, you can find running shoes for hard surfaces, mixed, waterproof, with a drop or no drop (that means whether you raise your heel or not), minimalist, etc.

The truth is that people spend a lot of money on sneakers since a good pair of them usually cost more than \$100, and sneakers don't last long.

### **The Clothes**

Some years ago, runners wore anything: a cotton T-shirt, shorts, and running pants. Today, runners use synthetic materials that allow sweat to dry quickly. If you go to a sports shop, you'll be surprised by the huge variety.

### **Supplements:**

What did a runner do a few years ago before a race? Well, they just ate a sandwich or a banana, and were good to go.

Now amateur athletes tend to use very specific supplements.

Protein supplements, vitamin supplements; sports drinks; energy gels; energy bars, etc. The lists seem endless. And I don't really know if these supplements are very effective, but people seem to spend hundreds of dollars every year on such supplements.

## **MINI-STORY**

### **(Practice your speaking)**

Okay, let's move on to the next section.

Here, I'll use the **Question & Answer** technique. This is the perfect lesson if you want to **speak English automatically**.

Let's see how it works:

- I'll give you some information. (A phrase or two).
- And then I'll ask simple questions.
- After each question, there will be some seconds of silence: now it's your turn to answer the question! Just give an easy and short answer, not a complex one.
- After you answer, I'll give you a correct answer.

This process will continue, and little by little, I'll be telling a story using questions and answers.

Let's get started!

**Some years ago, Jason was a very sedentary man.**

**Jason, were you very sedentary?**

Yeah, I was very sedentary. Sedentary means I didn't exercise, I didn't move.

**Did you get a lot of exercise?**

No, I didn't get much exercise. It was very sedentary a few years ago.

**Jason. When were you sedentary?**

A few years ago. I was sedentary a few years ago.

**Were you very sedentary yesterday?**

No, no. Yesterday I wasn't sedentary. I was sedentary a few years ago.

**One day he decided to participate in the New York Marathon.**

**Did you decide to participate in a race?**

Yes, I decided to participate in a race: the New York marathon.

**Did you decide to remain sedentary?**

No, I didn't decide that. I decided to participate in an important race.

**What kind of race did you decide to participate in?**

**For running, swimming, or cycling?**

Running. I decided to participate in a marathon. This means that I decided to participate in a race where the participants run. It wasn't a swimming race or a cycling race.

**Okay, Jason, thanks for the information. So, the marathon wasn't swimming or cycling. Where was it held? In which city?**

In New York. The marathon was held in New York.

**Jason spent \$1000 (dollars/bucks) on the best sneakers and sportswear.**

**Did you spend money on sneakers?**

Yeah. I spent money on sneakers.

**How much money did you spend?**

\$1000. I spent \$1,000 (bucks) on sneakers and sportswear.

**Did they give you \$1000?**

No, they didn't give me \$1,000. I spent \$1,000. I spent \$1000 (bucks.)

**What did you spend so much money on?**

Well, on the best sneakers and sportswear. I was going to run in the marathon!

**Every day Jason trained for 8 hours straight because he was very motivated.**

**Jason... were you training before the marathon?**

Yeah, sure. Sure. I was training. I was training for eight hours straight.

**What were you doing, Jason? Did you watch TV because you were sedentary?**

No, no. I wasn't watching TV; I was training. I trained as much as I could about eight hours straight because I was motivated.

**So, Jason... Why did you work out so many hours?**

Because I was very motivated, I trained eight hours in a row every day because I was very motivated.

**When the race started, Jason fell asleep because he was too tired.**

**Did you fall asleep when the race started?**

Yeah, I fell asleep when the race started.

**And why did you fall asleep?**

Because I was too tired, I fell asleep because I was too tired.

**Oh... what a shame. Were you too tired or just a little tired?**

Too tired. I was too tired.

**Of course, you had trained long before the race.**

**You think you were tired because you'd trained a lot?**

Yeah. Yeah. I think so, yes. I had trained long before the race. Maybe too much. Then I fell asleep when the race started. I slept very soundly.

**And you slept well?**

Yes, I did sleep well. I slept soundly. I had a lot of rest.

**Did you rest or get tired?**

I rested. I was too tired to run, and I fell asleep. I slept very well and rested.

Okay! Awesome! It's the end of this short lesson.

Can you see how many questions you can answer? It's like talking to another person in English. Now imagine a whole story told this way. It's incredible how much you can learn using this method.
