Today, we will learn more **internet words** and practice speaking with a mini-story.

Ok, let's start!

**Online Forum:**

An online forum is similar to a discussion group at the library. People gather on a website to discuss various topics, sharing their thoughts in posts and replies.

**Blog:**

A blog is like a personal journal or a collection of articles online. Individuals or organizations regularly update them to share information and opinions.

**Podcast:**

Podcasts are like radio shows on the Internet. You can listen to them online or download them to your device.

**Webinar:**

A webinar is an online seminar or presentation where you can watch and interact with the presenter through live video and other features.

**E-commerce:**

E-commerce is like an online marketplace. It involves buying and selling products or services on the Internet.

### **Phishing:**

Be cautious! Phishing is when someone tricks you into sharing private stuff like your passwords or credit card details by pretending to be someone you trust.

### **Username and Password:**

Your username and password are like keys to your online accounts. They protect your information from unauthorized access.

And now, let's continue with a mini-story.

## **Mini-Story** 📖

**(Practice your speaking)**

I will tell you a story by asking simple questions. I use this method in my [premium courses](#) because it's highly effective.

First, I say a short sentence with facts. Then, I ask you questions. After each question, you answer. Then, I tell you the right answer. That's how we make the story.

And if you want to improve your fluency much faster, check out my [Premium Courses](#):
